3 252.211-7006 RADIO FREQUENCY IDENTIFICATION NOV/2005

Note: This clause requires contractors to affix passive (as defined in the clause) RFID tags at the case and palletized unit load level when shipping parts to the depots in Susquehanna, PA (which INCLUDES the New Cumberland Facility where the DoDAAC is either W25G1U or SW3124) or San Joaquin, CA, DoDAAC: W62G2T.

Procurement Technical Assistance Centers (PTACs) <http://www.dla.mil/db/procurem.htm> can assist contractors with this new RFID requirement. Check with one in your region.

(a) Definitions. As used in this clause--

Advance shipment notice means an electronic notification used to list the contents of a shipment of goods as well as additional information relating to the shipment, such as order information, product description, physical characteristics, type of packaging, marking, carrier information, and configuration of goods within the transportation equipment.

Bulk commodities means the following commodities, when shipped in rail tank cars, tanker trucks, trailers, other bulk wheeled conveyances, or pipelines:

(1) Sand.

----------------------------------	--	-----------------------------

Name of Offeror or Contractor:

- (2) Gravel.
- (3) Bulk liquids (water, chemicals, or petroleum products).
- (4) Ready-mix concrete or similar construction materials.
- (5) Coal or combustibles such as firewood.
- (6) Agricultural products such as seeds, grains, or animal feed.

Case means either a MIL-STD-129 defined exterior container within a palletized unit load or a MIL-STD-129 defined individual shipping container.

Electronic Product Code\TM\ (EPC) means an identification scheme for universally identifying physical objects via RFID tags and other means. The standardized EPC data consists of an EPC (or EPC identifier) that uniquely identifies an individual object, as well as an optional filter value when judged to be necessary to enable effective and efficient reading of the EPC tags. In addition to this standardized data, certain classes of EPC tags will allow user-defined data. The EPC tag data standards will define the length and position of this data, without defining its content.

EPCglobal\TM\ means a joint venture between EAN International and the Uniform Code Council to establish and support the EPC network as the global standard for immediate, automatic, and accurate identification of any item in the supply chain of any company, in any industry, anywhere in the world.

Exterior container means a MIL-STD-129 defined container, bundle, or assembly that is sufficient by reason of material, design, and construction to protect unit packs and intermediate containers and their contents during shipment and storage. It can be a unit pack or a container with a combination of unit packs or intermediate containers. An exterior container may or may not be used as a shipping container.

Palletized unit load means a MIL-STD-129 defined quantity of items, packed or unpacked, arranged on a pallet in a specified manner and secured, strapped, or fastened on the pallet so that the whole palletized load is handled as a single unit. A palletized or skidded load is not considered to be a shipping container. A loaded 463L System pallet is not considered to be a palletized unit load. Refer to the Defense Transportation Regulation, DoD 4500.9-R, Part II, Chapter 203, for marking of 463L System pallets.

Passive RFID tag means a tag that reflects energy from the reader/interrogator or that receives and temporarily stores a small amount of energy from the reader/interrogator signal in order to generate the tag response. Acceptable tags are--

- (1) EPC Class 0 passive RFID tags that meet the EPCglobal Class 0 specification; and
- (2) EPC Class 1 passive RFID tags that meet the EPCglobal Class 1 specification.

Radio Frequency Identification (RFID) means an automatic identification and data capture technology comprising one or more reader/interrogators and one or more radio frequency transponders in which data transfer is achieved by means of suitably modulated inductive or radiating electromagnetic carriers.

Shipping container means a MIL-STD-129 defined exterior container that meets carrier regulations and is of sufficient strength, by reason of material, design, and construction, to be shipped safely without further packing (e.g., wooden boxes or crates, fiber and metal drums, and corrugated and solid fiberboard boxes).

- (b)
 - (1) Except as provided in paragraph (b)(2) of this clause, the Contractor shall affix passive RFID tags, at the case and palletized unit load packaging levels, for shipments of items that--
 - (i) Are in any of the following classes of supply, as defined in DoD 4140.1-R, DoD Supply Chain Materiel Management Regulation, AP1.1.11:
 - (A) Subclass of Class I--Packaged operational rations.
 - (B) Class II--Clothing, individual equipment, tentage, organizational tool kits, hand tools, and administrative and housekeeping supplies and equipment.
 - (C) Class VI--Personal demand items (non-military sales items).
 - (D) Class IX--Repair parts and components including kits, assemblies and subassemblies, repairable and consumable items required for maintenance support of all equipment, excluding medical-peculiar repair parts; and

(2) Bulk commodities are excluded from the requirements of paragraph (b)(1) of this clause.

(c) The Contractor shall ensure that--

(1) The data encoded on each passive RFID tag are unique (i.e., the binary number is never repeated on any and all contracts) and conforms to the requirements in paragraph (d) of this clause;

(2) Each passive tag is readable at the time of shipment in accordance with MIL-STD-129 (Section 4.9.1.1) readability performance requirements; and

(3) The passive tag is affixed at the appropriate location on the specific level of packaging, in accordance with MIL-STD-129 (Section 4.9.2) tag placement specifications.

(d) Data syntax and standards. The Contractor shall use one or more of the following data constructs to write the RFID tag identification to the passive tag, depending upon the type of passive RFID tag being used in accordance with the tag construct details located at <http://www.dodrfid.org/tagdata.htm> (version in effect as of the date of the solicitation):

(1) Class 0, 64 Bit Tag--EPCglobal Serialized Global Trade Item Number (SGTIN), Global Returnable Asset Identifier (GRAI), Global Individual Asset Identifier (GIAI), or Serialized Shipment Container Code (SSCC).

(8) Class 1, 96 Bit Tag--DoD Tag Construct.

(e) Receiving report. The Contractor shall electronically submit advance shipment notice(s) with the RFID tag identification (specified in paragraph (d) of this clause) in advance of the shipment in accordance with the procedures at <http://www.dodrfid.org/asn.htm>

(b) One or more qualification requirements apply to the supplies or services covered by this contract. For those supplies or services requiring qualification, whether the covered product or service is an end item under this contract or simply a component of an end item, the product, manufacturer, or source must have demonstrated that it meets the standards prescribed for qualification before award of this contract. The product, manufacturer, or source must be qualified at the time of award whether or not the name of the product, manufacturer, or source is actually included on a qualified products list, qualified manufacturers list, or qualified bidders list. Offerors should contact the agency activity designated below to obtain all requirements that they or their products or services, or their subcontractors or their products or services, must satisfy to become qualified and to arrange for an opportunity to demonstrate their abilities to meet the standards specified for qualification.

(d) Even though a product or service subject to a qualification requirement is not itself an end item under this contract, the product, manufacturer, or source must nevertheless be qualified at the time of award of this contract. This is necessary whether the Contractor or a subcontractor will ultimately provide the product or service in question. If, after award, the Contracting Officer discovers that an applicable qualification requirement was not in fact met at the time of award, the Contracting Officer may either terminate this contract for default or allow performance to continue if adequate consideration is offered and the action is determined to be otherwise in the Government's best interests.

(e) If an offeror, manufacturer, source product or service has met the qualification requirement but is not yet on a qualified products list, qualified manufacturers list, or qualified bidders list, the offeror must submit evidence of qualification prior to award of this contract. Unless determined to be in the Government's interest, award of this contract shall not be delayed to permit an offeror to submit evidence of qualification.

(f) Any change in location or ownership of the plant where a previously qualified product or service was manufactured or performed requires reevaluation of the qualification. Similarly, any change in location or ownership of a previously qualified manufacturer or

"Commercial and Government Entity (CAGE) code" means-

(1) A code assigned by the Defense Logistics Information Service (DLIS) to identify a commercial or Government entity; or

"Data Universal Numbering System (DUNS) number" means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

"Data Universal Numbering System +4 (DUNS+4) number" means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (2) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation DUNS or DUNS+4 followed by the DUNS or DUNS+4 number that identifies the offerors name and address exactly as stated in the offer. The DUNS number will be used by the Contracting Officer to verify that the offeror is registered in the CCR database.

(c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) An offeror may obtain a DUNS number

(i) If located within the United States, by calling Dun and Bradstreet at 1-866-705-5711 or via the Internet at <http://www.dnb.com/> ; or

(ii) If located outside the United States, by contacting the local Dun and Bradstreet office.

(e) Processing time, which normally takes 48 hours, should be taken into consideration when registering. Offerors who are not registered should consider applying for registration immediately upon receipt of this solicitation.

(f) The Contractor is responsible for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Governments reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. date is shown on the DD Form 1149 and/or DD Form 1348-1.

Supplies: The end item and all parts and accessories you furnish under this contract.

Defect: is any condition or characteristic in the supplies that is not in compliance with the requirements of the contract.

(b) Warranty

(1) Upon our acceptance of the end item(s), you warrant that the supplies are free from defects in design, material, and workmanship for a period of -1- months from the acceptance date.

(2) If a defect occurs during the warranty period that makes the end item(s) unsafe or impossible to operate, you agree to extend the warranty for each affected end item(s) by a period of time equal to the time beginning when we notify you that the end items are deadlined and ending when they have been corrected and made operable. Additionally, to the extent you or your suppliers provide to commercial customers a greater warranty for the end item(s) or any of its components, you further agree to provide such greater warranty to us. You also will furnish to TACOM (Attn: AMSTA-IM-MBP) a listing of the specific parts, components, or assemblies which carry a warranty greater than the warranty you are providing us, as well as the specific terms of each greater warranty. See paragraph (h)(6), below.

(3) Any supplies corrected under this contract also will carry the same warranty as if they had just been accepted by us, per paragraph (b)(1) above.

(c) Notification.

You will be notified in writing, following our discovery of a defect in the supplies. This will be your official notification of a warranty claim, and will initiate the time constraints for you to correct the defect(s). Our notification will include identification of the applicable item serial number(s), UIC of the units who own the defective item(s), operating hours on the item(s), part number of the defective part, and the circumstances surrounding the defect. At this time, you will further be informed whether we have elected (i) to correct the defect(s) ourselves, or (ii) to direct you to correct the defect(s).

(d) Remedies--New Replacement Supplies and Transportation Cost.

(1) Government Correction:

(A) If we provide the replacement parts to correct the defects through our own supply channels, you will reimburse us the cost of these replacement parts. The reimbursement cost will be established based upon the amount in your current commercial dealer net price list or our Army Master Data File (AMDF) price, whichever is less.

(B) If we direct you to provide the replacement parts to correct the defects, you will furnish the replacement parts to us, at the repair location we designate, without cost to us. You will furnish these replacement parts to us within ten working days after you receive our written notification, except when we otherwise agree in writing on another timeframe.

(2) Contractor Correction:

When we direct you to correct the supplies, you will furnish all material required to correct the defective supplies, and will make repairs within ten working days after you receive our written notification. You will provide a copy of your work order to the Government unit(s) that own the defective item(s). Your work order will identify (i) the specific defect(s) to be corrected, (ii) the corrections that will be performed, (iii) all replacement parts required, (iv) the labor hours required to make the repairs, and (v) the serial numbers of the end items to be repaired.

(e) Remedies--Labor for Warranty Repairs.

(1) Government correction:

When we elect to correct the supplies ourselves, you will reimburse us for the cost of labor involved in the correction, to include the cost of the end item disassembly and reassembly. The cost of the labor involved will be computed at the rate of \$48.00 per hour multiplied by the number of labor hours listed for the necessary repairs, as listed in your flat rate time schedule manual or in our Maintenance Allocation Chart (MAC), whichever is less.

(2) Contractor correction:

(A) When we direct you to correct the supplies, you will have the option to (i) correct them in the field, or (ii) return them to your designated facility for correction. When you correct the supplies, the cost of labor involved in the correction will be covered by you. If you elect to correct defects at your facility, you will arrange all transportation of the supplies to your facility and back to the units that own them, and you will bear the associated costs.

Name of Offeror or Contractor:		

(B) When we direct you to correct the defect(s), you will notify the warranty claimant (the unit that owns the items needing correction) before initiating the corrective action. This will be done within five working days of receiving our notice. Your notification will be oral and will indicate whether you elect to correct the defect(s) in the field (on site) or at your facility. Additionally, this notification will include the name and location of the repair facility, if your facility will be used, and in all cases will indicate the date(s) on which the repair work will be done, and the dealer or individual(s) who will perform the work. Should you fail to accomplish required warranty corrections within ten working days after notification of warranty claim, you agree to extend, at no additional cost to us, the terms of coverage of the warranty on these affected supplies for a time equal to the period beginning with our formal notification of claim until the date the supplies have been corrected.

(f) Reimbursement Procedure.

You must provide payment by the 15th day of each month for all warranty claims submitted by us for reimbursement which were received by you during the previous month. The payment shall be by check made payable to the Defense Accounting Office, DAOTACOM, and mailed to the U.S. Army Tank-automotive and Armaments Command, Attn: DFAS-IN/EM-BED, Warren, MI 48397-5000. The payment shall be accompanied by a statement which identifies, for each claim covered by the payment, the claim number, the Unit Identify Code (UIC) of each claim, the date of each claim, total dollars (broken out between parts and labor), and this contract number.

(g) Contractor Rights and Remedies

(1) You have the right to inspect any defective supplies, wherever located, within 30 days after notification of a warranty claim for the purpose of evaluating the cause of, or existence of the defect(s). If we do not receive your instructions within this 30 day period, we will dispose of the defective supplies. This right, however, does not relieve you of your responsibility to initiate the warranty replacement/repair action when we notify you of a warranty claim. In the event you determine the defective supplies are clearly non-warrantable (per paragraph (h)(4) of this clause) you will stop ongoing repair action and notify the owning unit.

(2) In the event that a previously accepted warranty claim action is determined to be invalid, you will be equitably reimbursed. Our failure to agree to such a reimbursement, or any circumstance where you disagree with our determination, will be considered a dispute, and processed per the disputes coverage in this contract (see paragraph (d) of FAR 52.212-4).

(h) General Warranty Matters

(1) If commercially available, you will deliver your current flat rate time schedule manuals and current price lists to us, concerning the supplies you are furnishing under this contract. Note this contract number on these manuals and price lists. Use this address: U.S. Army Tank-Automotive and Armaments Command, Attn: AMSTA-IM-MBP, Warren, MI 48397-5000.

(2) You shall affix a permanent Warranty Data Plate to each end item covered by this warranty. The data plate will list the word WARRANTY across the top in bold letters. It also will list the National Stock Number, your Contractor name and CAGE code, the date the warranty starts by year and month (e.g. 9701), and the date the warranty expires by year and month (e.g. 9807). The end item data plate shall be approximately 3 inches by 4 inches, and shall be mounted in clear view of the operator as near as possible to the center of the instrument panel. Background material requirements are that there will be alternating bands of blue and neutral (natural color of the material), placed diagonally at a 45 degree angle to the vertical. The stripes will be of equal width, with each strip approximately as wide as the lettering characters are tall.

(3) The rights and remedies provided to us in this clause are in addition to and do not limit any rights afforded to us by any other clause in this contract.

(4) The warranty set forth in this clause does not apply to any damage or failure to perform caused by misuse or abuse of the vehicle, combat damage, fair wear and tear items (brake shoes, track pads, wiper blades, etc.), or by our failure to perform proper maintenance or service on the supplies.

(5) You will provide a warranty performance report if required to do so by contract Data Item Description, such as DI-MNTY-81217).

(6) You will furnish, within 30 days from contract award, a listing of specific parts, components, and assemblies which carry a warranty greater than the warranty period in paragraph (b)(1) above. A copy of each warranty, along with each supplier's method of implementation, will also be provided to us, at the mailing address given in paragraph (h)(1) above.

(7) If we place any end items in storage following acceptance, you agree to extend the warranty terms for each affected item by an additional period of time equal to the number of months the item is kept in storage, or you agree to give us an equitable reduction in the contract price equal to the pro rata cost of the lost portion of the warranty, up to the full cost of the warranty, for each month after acceptance that we keep those end items in storage.

(a) At the Tank-automotive and Armaments Command (TACOM) we have an ombudsperson office, which builds an extra communication avenue that our contractors can use.

(c) The buyer's name and phone number are on the cover page (SF 1449) of this solicitation in block number 7.

- i. TACOM solicitation number;
- ii. Name of PCO;

- iv. Summary of your discussions with the buyer/PCO.

(f) Another avenue you can use, if you wish to protest some feature of this acquisition, is to protest to TACOM's headquarters, the Army Materiel Command. The AMC-level protest program encourages interested parties to seek resolution of their concerns within AMC as an Alternative Dispute Resolution forum, rather than filing a protest with the General Accounting Office or other external forum. Contract award or performance is suspended during an AMC-level protest to the same extent, and within the same time periods, as would apply to a protest filed with the GAO. The AMC program has a goal of resolving protests within 20 working days from the date of filing. To be timely, AMC-level protests must be filed within the periods specified in subpart 33.103 of the Federal Acquisition Regulation.

(g) To file an AMC-level protest, send the protest to:

13 52.246-4037 COMMERCIAL WARRANTY INFORMATION OCT/1996
(TACOM)

(a) If the items you are offering us normally are provided with a warranty when sold to other customers, we expect the same warranty coverage if we award you a contract as a result of this solicitation. In that event we will need the details of your warranty, so we'd like some warranty information as part of your response to the solicitation. You may do so either by attaching a standard brochure or information sheet, or by filling out the following. If you are providing warranty data in the form of a brochure or information sheet, please check the following box, and then fill in additional information below only to the extent that it isn't already covered in the material you are attaching.

() Warranty data is covered in attached information sheet, entitled: _____

(b) Please tell us about your warranty:

(1) How long is the warranty period? (If you do not give a warranty on the item you are offering us in this bid or proposal, just enter NONE, and then skip to paragraph (6) below.)

(2) Does the warranty run strictly in terms of time after the sale, or does it also expire based upon usage of the item (for example, after X hours of operation, or after Y miles driven)?

(3) What does the warranty cover? Does it cover all failures in the item during the warranty period, or are there exclusions?

Does the warranty cover replacement parts only, or is labor included as well?

(4) How does the warranty start? Does it begin automatically, after acceptance by the customer, or must the customer submit a card or other documentation to begin the warranty coverage?

Name of Offeror or Contractor:

(5) Do you have any methodology for delayed start of the warranty period (such as if TACOM buys the items and stores them for three months before issuing them to the field users)?

(6) Is 100% of the warranty coverage provided by you, or are any components covered by pass-through warranties from their manufacturers, which might require us as a customer to deal directly with someone other than you on a warranty claim?

() No pass-through warranties will apply: all warranty coverage is provided and administered by us.

() Yes, pass-through warranties will apply, on the following, which would require warranty claims to be submitted directly to another company on these items:

COMPONENT/SUBSYSTEM	WARRANTY DURATION
---------------------	-------------------

(7) Where do customers make a claim against the warranty? Must a claim be filed in a central location first, or can the defective item be taken to any authorized dealer? If the latter, who are the authorized dealers?

(8) When making a claim, how must we identify the item as being within the warranty period? (This concerns us because the field users of this equipment work at geographically dispersed sites, where proof of purchase will not be available.)

(9) What circumstances, if any, will void the warranty?

(10) Is an extended warranty available?

- () Yes
- () No

If an extended warranty is available, what is the cost of the extra coverage, and what are its terms?

3 52.215-4404 DATA AND COMMUNICATIONS SUBMITTED TO THE GOVERNMENT ELECTRONICALLY MAY/2002

(a) The Government often employs contractors as system administrators to operate and maintain Government computer systems. These systems include local area networks, web sites, databases, other electronic records, e-mail accounts, other electronic data transfer mechanisms and computer software. The employees of these contracted system administrators sign nondisclosure agreements obligating them not to reveal information contained in files, documents, computers or systems that they administer. However, unless such information is protected in some way, contracted system administrators do have the ability to access such information.

(b) Potential contractors as well as any other parties are thus advised to take steps needed to prevent access by contracted system administrators to information submitted electronically to the Government. Absent such steps, it is assumed that contracted system administrators are permitted the capability to access the data. The access will be limited to that which is necessary for the contract system administrator to perform its duties for the Government. The access shall be subject to the condition that third party information is not to be revealed by the contracted system administrator.
